Please read instructions, complete this application carefully, and include all necessary additional forms and statements. Note that all applications for federal and state aid must be processed by the student's home institution. Contact CYA immediately if any of the below information changes while this application is under review.

College Year in Athens (CYA) has supplemental scholarships available for academically qualified students who would not otherwise have the financial means to attend. The maximum amount is usually no more than \$7,650 per semester. The awards should not be used to reduce the financial aid package awarded through the home institution, but rather to provide ADDITIONAL funding to students who are unable to transfer their entire financial aid package toward study at CYA or whose aid package is not sufficient to cover the cost of attendance at CYA.

Our goal in the questions below is to ensure that all parties are fully informed and to avoid jeopardizing any financial aid (including loans) the student receives through the home institution. We particularly want to avoid situations in which a student believes that a CYA scholarship will provide additional financial resources for the study abroad period when, in fact, it will simply replace aid from other sources.

This form must be completed and accompanied by:

- Copy of **both** parents'/guardians' last federal tax return (1040 only)
- Copy of the student's last federal tax return (1040 only) if applicable

Please send all documents to the Admission Committee of College Year in Athens:
